

Name: _____

Date: _____

Location: _____

Schoolyard Habitat Survey

1. What does this area look like? Write a general description of the area and make sketches.

2. What grows here? Sketch and describe trees and other plants you see. Include details that will help you identify them using field guides.

3. Place a check mark next to features you observe:

- ☐ Source of fresh water
- ☐ Bushes for birds and small animals to hide
- ☐ Trees and bushes that provide food (fruit, seeds) for wildlife
- ☐ Other (describe): _____

4. Does the schoolyard provide the four basic needs all creatures need for survival? Explain why or why not.
